---

Hi Everyone,

We will now be moving away from holding the weekly meetings many of you have attended in the past for the Soitec project and the applicant will be submitting revised technical studies and EIR sections per the attached schedule.

As we had agreed to in the past, we will commit to a 14 day review as also indicated on the schedule. Please take a look at the submittal dates for your subject area and let me know if you have any conflicts with completing a review during that time (ie: vacation, other large reviews, etc.) so that we can work out a plan ahead of time.

Thank for all your hard work up to this point!

Ashley
